Paul Mitchell The School Albuquerque

ESTHIOLOGY COURSE INFORMATION

ESTHIOLOGY COURSE DESCRIPTION

Significant reading, writing and studying will occur during the educational experience. You must have a sufficient understanding of the English language in order to successfully complete the program. All courses are taught in English.

Esthiology: ***Standard Occupational Classification (SOC) 39-5094.00***
Classification of Instructional Programs (CIP) Code 12.0409
The curriculum involves 600 hours to satisfy New Mexico state requirements. The course includes instruction and practical experience in facials, hair removal, makeup application, customer service, personal appearance and hygiene, personal motivation and development, retail skills, client record keeping, business ethics, state laws and regulations, salon-type administration, and job interviewing.

**Student's are prepared to be an entry level esthetician.*

This course is taught in English. Textbooks and Course Materials are only offered in the English Language.

ESTHIOLOGY COURSE OVERVIEW

Course Hours: 600 clock hours

The course is divided into pre-clinical instruction and clinical service learning experiences.

- **Pre-clinical Classroom Instruction:** The first 190 hours are devoted to pre-clinical classroom instruction where Future Professionals develop foundational knowledge and practical skills through classroom workshops, demonstrations, theory instruction, and guided practice. Instruction emphasizes design principles, technical procedures, safety and sanitation, professional conduct, and readiness for supervised services.
- **Clinic Learning Experience:** Future Professionals apply classroom learning through supervised practical instruction and guest services. With coaching and guidance from Learning Leaders, they refine technical skills, consultation and communication, guest experience, product recommendations, and professional work habits. Learning continues through mini-classes, feedback, and structured practice.

ESTHIOLOGY COURSE OUTLINE

- **Core Curriculum:** The Core Curriculum introduces the foundational principles and skills of the program through theory instruction, demonstrations, and hands-on practice. Future Professionals build essential technical knowledge, safety and sanitation practices, client care, and professional habits. Learning Leaders monitor progress, and learning is evaluated through written, oral, and practical methods, as applicable. Completing Core successfully prepares students for the next phase of their education, including supervised clinic classroom experiences.
- **Clinic Classroom Learning Experience:** In the clinic classroom, Future Professionals provide services to guests under Learning Leader supervision. They keep learning and reinforce classroom instruction through coaching, mini-classes, practical worksheets, and progress evaluations. They practice consultations, service planning, technical proficiency, guest communication, sanitation and safety, and professional service habits.
- **Classroom Learning Experience:** Instruction combines theory, demonstrations, and practical application. Additional learning opportunities may address retailing and product knowledge, communication, professional development, motivation, and career readiness, facilitated by appropriate school team members or guest

artists.

ESTHIOLOGY COURSE PROGRAM TESTING AND GRADING PROCEDURE

The following tests and grading procedures are incorporated during the student's 600-hour course:

1. **Academic theory exams:** Student must receive a grade of 80% or higher on each assigned lesson plan theory test.
2. **Core written and practical skills evaluation:** Students must receive a grade of 80% or higher on each written exam and each practical skill exam in order to complete the Core program. The exams are an overview of instruction taught during the Core schedule. All Core written and practical skill exams must be passed with a 80% in order to transition to the Clinic Classroom. If students are unable to pass each exam after two attempts, the student may be asked to withdraw from the program and re-enroll in the next available Core class start date.
3. **Midterm (upon successful completion of Adaptive exam):** This test is an overview of all related esthetics subjects (e.g., anatomy, chemistry, etc.). Students must receive a grade of 80% or higher on all final tests.
4. **Final exam (upon successful completion of Adaptive exam):** The written test covers an overview of all theory instruction, New Mexico state law, and other items covered on the state esthiology exam.
5. **Clinic Practical Skills Assessments:** Students progress in practical skill assessments and theory hours will be digitally monitored on a weekly basis by the Future Professional Advisor. All assigned practical skill assessments must be completed in order to complete the program.

INSTRUCTIONAL TECHNIQUES AND METHODS

The 600 hour esthiology program are provided through a sequential set of learning steps which address specific tasks necessary for State Board preparation, graduation and job entry level skills. Clinic equipment, implements and products are comparable to those used in the industry. Each student will receive instruction that relates to the performance of useful, creative and productive career oriented activities. The course is presented through well-

developed lesson plans that reflect the latest educational methods. Subjects are presented by means of lecture, demonstration, and student participation. Audio-visual aids, guest speakers, field trips, and other related learning methods are used in the course.
